

# Company Director course

Elevate your board's performance, together.

## Leaders Institute of South Australia

Leaders institute of South Australia is pleased to announce the delivery of the Company Directors Course through the Australian Institute of Company Directors (AICD)

### **STRONG GOVERNANCE CREATES STRONG BOARDS**

It's never been more important for boards to extend their skills and knowledge to meet the challenges of tomorrow. It makes sense that current, relevant learning unlocks your board's potential and inspires more critical perspectives on governance for performance.

For more than 40 years, the AICD's Company Directors Course has been the benchmark in Australian governance education. It is delivered in-house, a specialist initiative from the AICD providing organisations with ongoing board performance assessment and in-house governance education.

### **MEANINGFUL CONTRIBUTION AND REAL ADVANCEMENT.**

It's well-established that high performing boards contribute more significantly to society in the areas of social equity and economic prosperity. Through its courses, the AICD provides critical governance knowledge that underpins improved board productivity and performance. Improved governance understanding leads to better outcomes, no matter the size or stage of your organisation. The in-house Company Directors Course is designed to improve your board's performance in three important ways.

### **FOSTERING YOUR GOVERNING TEAMS GROWTH.**

Building your governance understanding together improves board cohesion and performance. Developing a shared understanding of good governance through discussion of core governance principles and practical, relevant examples improves learning outcomes and growth as a governing team.

### **WHAT YOU WILL LEARN?**

- Your organisation's specific governance requirements originate from its operating context. Board Advance matches course facilitators with your organisation to ensure a meaningful learning experience, with relevant insights and case studies.
- With a dynamic and contextualised approach, your team gains a real edge in governing for performance

# Key Course Themes

The *Company Directors Course*<sup>™</sup> is delivered in-house, with participants completing five core content themes in flexible delivery formats.

1	<b>GOVERNANCE AND THE PRACTICE OF DIRECTORSHIP</b> Understand the duties and practices of directorship, and a board's functions and responsibilities.
2	<b>THE LEGAL ENVIRONMENT</b> Analyse the responsibilities and functions of directors and officers and consider the impacts of a changing legal environment on board decision making.
3	<b>RISK AND STRATEGY</b> Examine the board's role in developing a culture appropriate for the risk tolerance of the organisation and explore the board's roles in developing and executing strategy.
4	<b>FINANCIAL LITERACY AND PERFORMANCE</b> Focus on financial literacy for directors and evaluate the board's explicit role in driving organisational performance.
5	<b>ACHIEVING BOARD EFFECTIVENESS</b> Investigate effective decision making, board dynamics, the impact of individual and collective performance and how a constructive board culture can create significant value for an organisation.

The delivery of in-house governance education is structured to meet your organisation's requirements, while maintaining the integrity of the learning experience. The learning approach consists of a series of facilitated discussions and interactive case studies that can augment understanding.

AICD expert facilitators based on their directorship experience in a similar organisation, sector or industry, as well as their ability to engage and connect with participants.

It is essential that all participants commit to the necessary pre-reading to get the most out of the group learning experience. We also recommended that participants complete the optional individual assessment to consolidate their knowledge.
