

AUSTRALIAN NATIVE LANDSCAPES PTY LTD

'Compost for Soils'

Re-Mulch[®] Certified Organic Input

Product Category
Quality system

Certified Mulch Blend
NASAA

Formulation

Select composted organics.
Select region forest residues

Particle Grading

5-25mm

Analysis

Physical

Wettability (mm/min)	7-8
Bulk Density (kg/l)	0.3-0.4

Chemical

pH	6.0-7.0
EC (dS/m)	0.1-0.4
Total N - LECO (%)	<0.4
Calcium (%)	<0.15

Pesticide Residues	Below detection limits
Heavy Metals	As per NASAA guidelines

General Information

This product meets all requirements of a certified organic input as specified under NASAA certification.

Re-Mulch[™] is a blend of uncomposted mulch & composted soil conditioner. The fine compost component washes in to condition the soil, leaving the mulch layer to suppress weeds and retain moisture.

Re-Mulch[™] should be applied to a depth of 75mm. Repeat applications may be required every 3-4 years.

This is a relatively low nutrient organic mulch and where significant nutrition is required, amendments may be added. For more detailed information please contact one of our qualified horticulturists.

NB: Material Safety Data Sheets are available on request.
