

# Supernova Series

Joining the already super-efficient **Super-Six, 6.8 star equivalent\*** and the world's first **7 star equivalent\*** ducted gas heaters, **Braemar now has the highest star rating model in every category!**

## Braemar has:

- a solid reputation for product innovations and “world firsts” and now, with the new **Supernova series**,
- the **most energy-efficient ducted gas heating range available in Australia!**

**Three super energy-efficient models have been added to the Braemar range including:**

- 1. Super-Three, 3.9 star**
- 2. Super-Four 4.9 star**
- 3. Super-Five, 5.9 star**

## Specifications

Series	Model	Dimensions			Weight	Rating	Capacity	Airflow		Duct Diameter	Output	Controller Type			Gas Type
		(mm)	(mm)	(mm)				(kg)	(MJ/h)			(l/s @ 100 Pa)	(mm)	(kW)	
		Length	Width	Height				Standard	Extra Air**						
Supernova	Super-Three TSS320	770	385	660	50	3.9	80	630	695	300 std 350 XA	18.0	-	✓	-	NG / Propane
Supernova	Super-Four TSS420	770	385	660	50	4.9	88	630	695	300 std 350 XA	20.0	-	✓	-	NG / Propane
Supernova	Super-Five TSS523	1150	385	660	61	5.9	88	640	755	300 std 350 XA	22.5	-	✓	-	NG / Propane
Supernova	Super-Six TSS623	1150	385	660	63	6.8*	88	640	755	300 std 350 XA	23.5	-	✓	-	NG
Ecostar	TQS730	1165	510	660	80	7.0*	100	700	-	350	26.6	-	-	✓	NG

\* Star rating equivalent. Based on Australian Gas Association's calculated tests.

\*\* Extra air models are designed to have Braemar integrated refrigerated cooling added.
