

OUR VISION

A thriving & resilient Victoria

OUR MISSION

We celebrate the legacy of Sir Jack Brockhoff by supporting initiatives that provide enduring benefits to the health and wellbeing of all Victorians

OUR STRATEGIC PRIORITIES

THRIVING CHILDREN

With a focus on breaking cycles, we invest in initiatives that support the first six years of a child's life through early intervention and prevention, ensuring all children reach their full potential

SAFE, SECURE, CONNECTED COMMUNITIES

With a focus on participation and connection, we invest in greater access to secure housing and mental health support so Victorians, particularly older Victorians, are connected and involved with family, friends and community

BACKING BIG IDEAS

With a focus on achieving change at scale and addressing intractable complex problems affecting the health and wellbeing of Victorians, we invest in leaders and experts in community, social innovation and medical research to find and embed innovative solutions to complex problems

OUR INVESTMENT APPROACH

BOLD FUTURES

Investing in initiatives that test solutions to complex problems

Medical research grants of up to \$75K p.a. for up to two years.

Project focused grants of between \$100K - \$200K p.a. for up to three years

PEOPLE & PLACE

Collaborative partnerships with communities to strengthen community resilience

Place based grants of between \$200K-\$300K p.a. for up to five years

GRASSROOTS CAPABILITIES

Supporting the core capacity and capability of grassroots organisations

Small practical grants of between \$10K-\$30K for one year

INVESTMENT PRINCIPLES

- We add value beyond grant making
- We fund with a long-term view
- We seek to understand the underlying causes of the problems we seek to address
- We take a strengths-based approach
