

INDUCTION HOLDING, DELIVERY, AND HEATING

## THE BRAND

Created in 1994, CookTek® is the leading innovator in induction warming, cooking, and heated delivery systems for commercial kitchens and restaurants. CookTek® is dedicated to innovative product development and superior customer service.

 CookTek®

# The Induction Revolution

Whether the slightest touch of heat to melt the most delicate product or explosive force to instantly blacken or boil, CookTek® induction systems provide the means.

CookTek® innovative induction systems bring food service to a whole new level with advanced, efficient cooktops, food warmers, and more. Professional chefs in commercial kitchens enjoy higher productivity, substantial energy savings, and safer cooking environments.

### Benefits of Induction

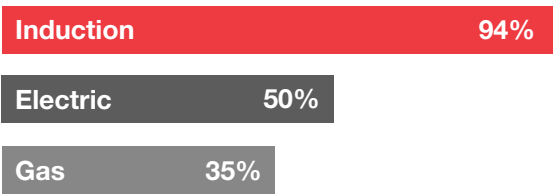

CookTek® induction systems are faster and more efficient than both gas and electric. They are easy to control for precise heating and unmatched results. The induction cooktop surface remains cool to the touch for lower risk of injury and easier cleanup. CookTek® induction systems offer significant energy savings, lower utility bills, and provide a cooler, greener kitchen.

### How Induction Works

Induction heating devices work by applying an alternating electromagnetic wave to magnetic cookware, such as stainless steel or cast iron pans. The metal molecules are attracted in different directions as the current alternates. Heat is generated from resistance and other physical processes caused – or induced – by the wave.

CookTek® induction systems are 94% efficient, meaning that 94% of the energy consumed is delivered to the pan. This is unmatched by gas (typically 35%) or traditional electrically-powered cooking devices (typically 50%). As a result, induction cooking devices release less heat into the room, use less fuel, and save energy.

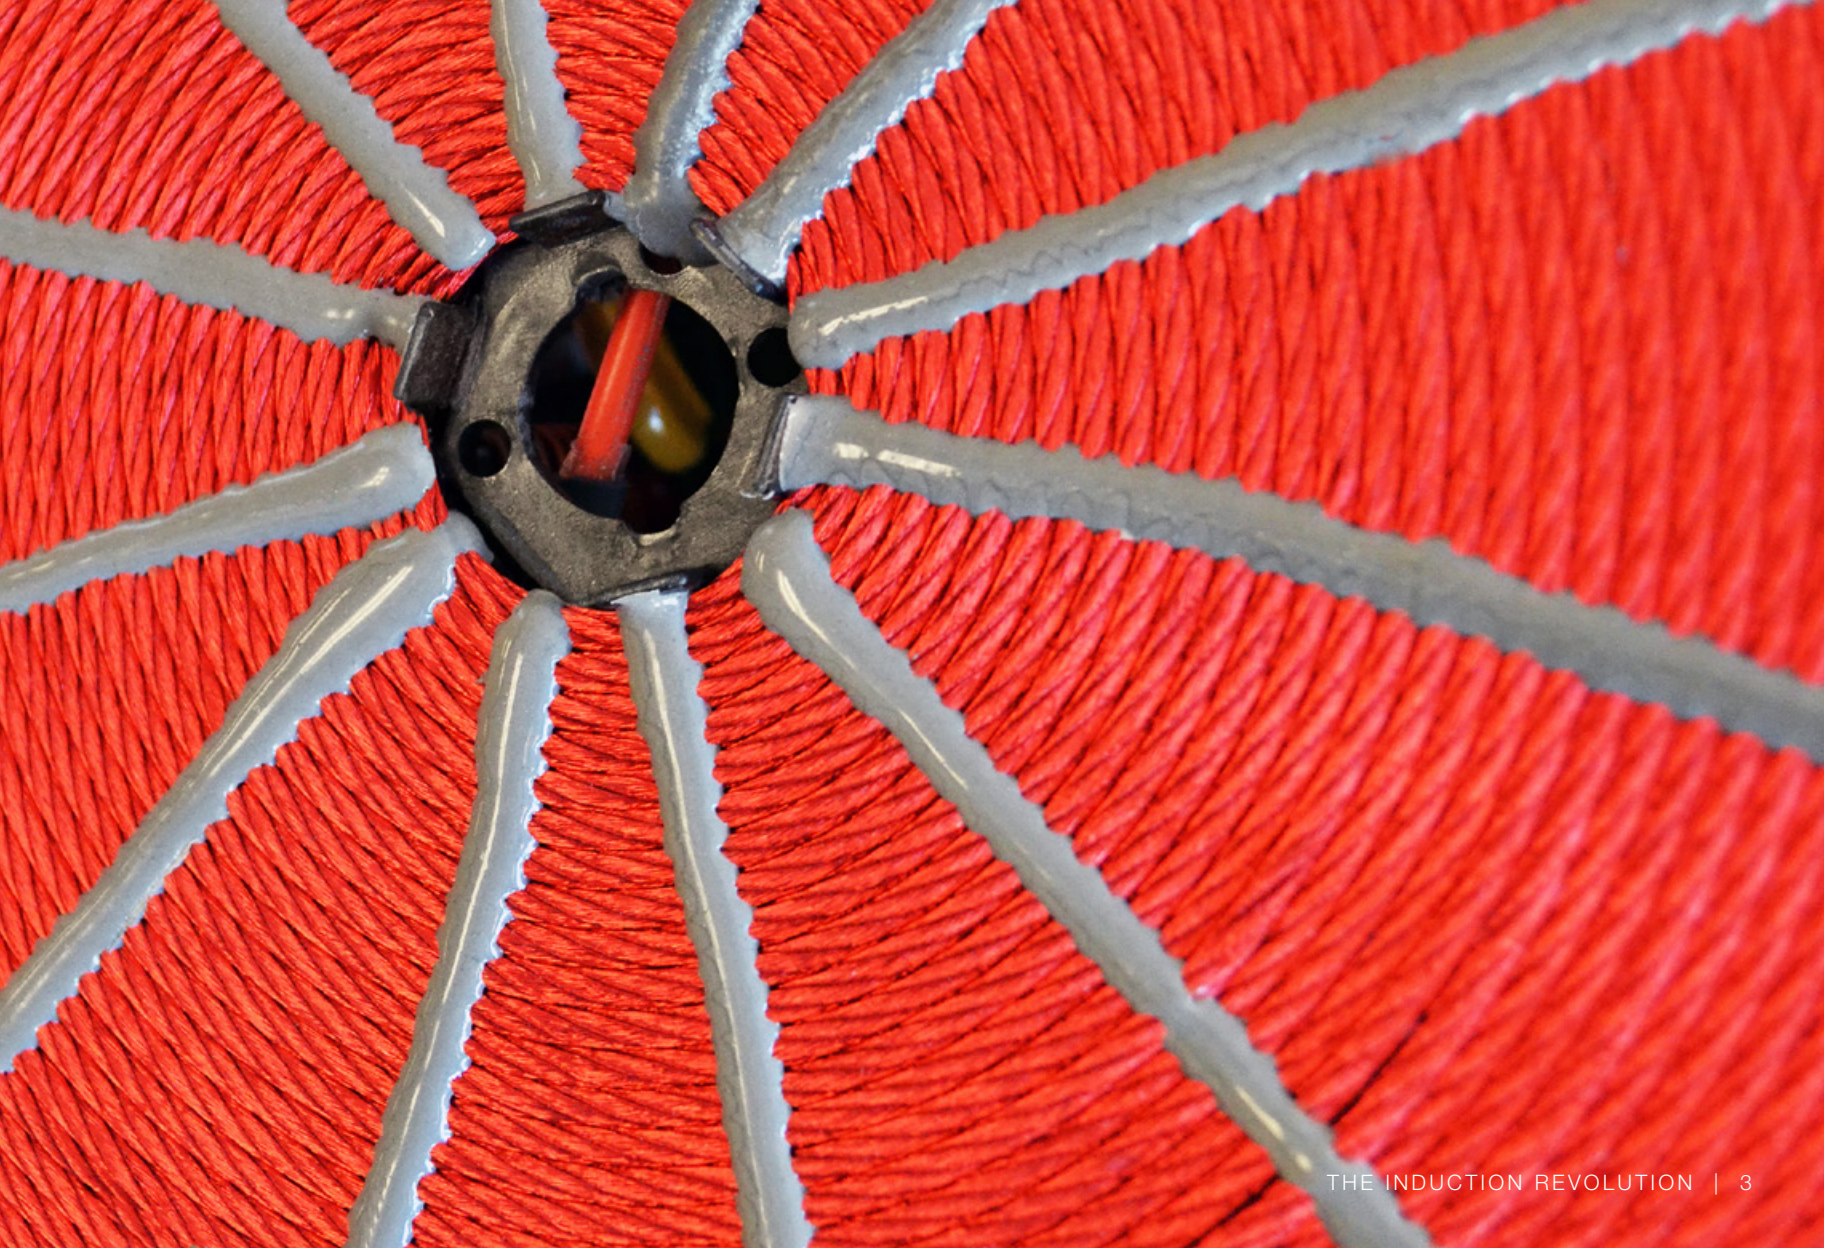

### % of Energy Delivered to Pan

### CookTek Warranty\* – U.S. and Canada

All CookTek® induction cooking and holding equipment is warranted against defects in materials and workmanship. “Portable” CookTek® products, including the single and double cooktops, wok, FaHeater, Soup Warmer, ThermaCube Delivery System, and Pizza Delivery System, are covered by a two-year advanced replacement warranty. “Non-portable” CookTek® products, including the Silenzio, SinAqua, Incogneeto, Stock Pot, four and six-burner ranges, and plancha are covered by a one-year field-service warranty. Non-electrical consumables and accessories are covered for a period of 90 days. Visit [www.cooktek.com/warranty-service](http://www.cooktek.com/warranty-service) for full details.

\*Warranty begins from the date of shipment from the CookTek® factory. Warranty may not be available outside the U.S. and Canada. Contact your Authorized International Distributor for more information.

# POWER TOOLS FOR CHEFS™

## WARMING/HOLDING

Food must be prepared well, but also served properly! CookTek® induction warming and holding equipment keeps food at the right temperature while improving your presentation and overall quality.

Because of its innovative design and advanced heating technology, CookTek® induction warming/holding equipment delivers the best results every time!

## DELIVERY

Fresh and hot delivered food helps keep your customers loyal.

CookTek® heated delivery systems use induction technology to retain flavor and warmth – just like serving food straight from the oven!

Discover the convenience, innovation, and customer satisfaction of CookTek® induction delivery systems.

## HEAVY DUTY

The back of the house is where all the action is, and professional chefs need high-quality commercial kitchen equipment that withstands any cooking challenge.

CookTek® heavy duty ranges and planchas are designed, built, and tested to withstand the rigors of a commercial restaurant environment. The units feature overbuilt legs and cast metal control knobs.

## COUNTERTOP COOKING

Professional chefs worldwide count on CookTek® commercial induction cooktops to deliver the precision and consistency they need for quality results.

Our portable countertop cooktops heat food evenly, quickly, and efficiently, with easy-to-clean surfaces and energy efficient technology.

Finally, you can enjoy a cleaner, safer, cooler, and more efficient kitchen with lower utility bills!

# Incogneeto™

## The invisible under-counter warmer

- Cleanly mounts beneath the countertop – no need to cut holes in your counter
- Locate the heat zone by placing the Magneeto™ 2 trivet on the countertop
- Patented technology allows you to safely use under natural or engineered "stone" countertops
- Patented RFID transmission allows food to be held at precise temperatures
- When service is complete, simply remove the trivet and clean the countertop
- Fits up to a 12" (305 mm) induction-compatible enamel cast ironware or traditional chafer
- Broad temperature range from 80°F–190°F (30°C–85°C)
- One-year field-service warranty – U.S. and Canada

Magneeto™ 2 Trivet  
(one included with purchase)

1. Chafing Dish\*
2. Magneeto™ 2 Trivet
3. Stone Countertop\*
4. Plywood Substrate\*
5. Incogneeto™ Unit

\*Not included with purchase of Incogneeto™.  
Chafing dish available as an accessory.

Height	4.5"	114 mm
Width	17.5"	445 mm
Depth	17.5"	445 mm
Weight	15 lb.	6.8 kg

Electrical Specifications (Single Phase)		
100-120 VAC (max amps)	650W (6A)	
200-240 VAC (max amps)	650W (4A)	

Transform your existing stone cooktop into a temperature buffet warmer with the Incogneeto™.

# Silenzio™

## Superior warming with minimal noise and power

- Low wattage allows for silent performance while using less power
  - Up to two 650W units per 100–120 VAC, 15-amp circuit
  - Up to three 650W or 1000W units per 200–240 VAC, 15-amp circuit
  - Up to four 650W or 1000W units per 200–240 VAC, 20-amp circuit
- Available in a square or round drop-in design
- Unobtrusive, easy-to-clean plain black tempered glass
- Four standard temperature settings with option to add up to 11 temperature settings ranging from 80°F (27°C)–250°F (121°C)
- Maximum temperature limit (250°F/121°C) does not require additional cabinet fans and prevents damage to servingware
- Lock feature prevents unwanted setting changes
- One-year field-service warranty – U.S. and Canada

- 1. Chafing Dish\*
- 2. Silenzio™ (Round) Unit
- 3. Stone Countertop\*

\*Not included with purchase of Silenzio™ Unit.  
Chafing dish available as an accessory.

The electronics within the unit emit very little heat and require no cooling fan, meaning the Silenzio™ is whisper-quiet and energy-efficient.

# SinAqua™

## Holds everything but the water

- Uses 63% less energy than a traditional electric steam well with an empty pan, and 50% less energy with a loaded pan
- Independent temperature control allows precise temperature holding for each pan to maximize food quality
- Drop-in and start holding – no water lines or drains required
- Rectangular and round models available
  - Rectangular models: 2.5, 4, or 6-inch depth / full, 1/2, 1/3, and 1/6 pan sizes
  - Round models: 11 or 14-inch diameter
- One-year field-service warranty – U.S. and Canada

Model No: IHWxxx-xx

14-inch Model No: IDWxxxL  
11-inch Model No: IDWxxxS

\*Different depths should not be mixed in the same application, as pan contact with the unit's temperature sensor is required.

The SinAqua™ food well eliminates the need for steam and improves food quality. No more plumbing and drainage hassles – no mess, no leaks, no spills, and no potential waterborne health risks.

# Soup Warmer

## Hold soup twice as long using half the energy

- Insert contains a small amount of water and evenly distributes heat without scorching delicate soups
- Boil indicator notifies operators when the water boils out – no drain or water line hookup required
- Fits standard 7 qt (6.6 L)\* or 11 qt (10.4 L) soup tureens
- Drops into round cut-out in countertop of your choice (stone, stainless steel, wood, etc.)
- Four standard temperature settings with option to add up to 15 temperature settings
- Re-therm setting delivers continuous maximum power until desired temperature is reached
- Optional automatic timer commences when pan is inserted into the well
- Two-year advanced replacement warranty – U.S. and Canada

Model No: ISWxxx

\*Adapter ring required.

The Soup Warmer is designed to bring soup from a chilled state (below 35°F / 1.7°C), through the HACCP danger zone to 165°F / 73.9°C in under 90 minutes.

# ThermaCube™

## Heated delivery for up to 30 minutes

- Induction-charged natural convection tray circulates hot air around the food for up to 30 minutes
- VaperVent™ lid eliminates condensation
- Fast heat-up – initial charge takes less than 3.5 minutes; recharges in as little as 60 seconds
- Easily replace components when needed – charger, bags, and natural convection trays are sold separately†
- Natural convection tray available in nominal, +10%, +25%, and +35% heat
- Cordless bags for convenient, efficient delivery
- Two delivery bag sizes available to accommodate various types of cuisine
- Easy to clean – delivery bag (without Natural Convection Tray) is machine washable; Natural Convection Tray is submersible for cleaning (not dishwasher safe)
- Two-year advanced replacement warranty – U.S. and Canada

	Charger	
Height	8.25"	209 mm

200-240 VAC* (max amps)	1,800W (8A)	

ThermaCube™ Charger Model No: TCSxxx

Natural Convection Tray  
(Available in nominal, +10%, +25%, and +35% heat)

ThermaCube™ Delivery Bag  
(Available in two sizes – small and large)

†Do not mix ThermaCube™ components with Pizza Delivery System components.  
\*200-240 VAC version not sold in U.S. or Canada.

The ThermaCube™ Delivery System offers unparalleled performance when it comes to maintaining temperature and controlling humidity.

# Pizza Delivery System

## Deliver hot pizza like it's straight from the oven

- Induction-charged thermal disc keeps up to three pizzas at a consistent, hot temperature for up to 30 minutes
- VaperVent™ lid eliminates condensation
- Fast heat-up – initial charge takes less than two minutes; recharges in as little as 60 seconds
- Easily replace components when needed – charger, bags, and thermal FlashPak discs are sold separately†
- Charger base is available in 16” (406 mm) or 18” (457 mm) models†
- Cordless bags for convenient, efficient delivery
- Bag available with custom logo; standard bag in black
- Two-year advanced replacement warranty – U.S. and Canada

\*200-240 VAC version not sold in U.S. or Canada.

“We love CookTek’s Pizza Delivery System and are excited about having a heated system that finally works! My drivers especially appreciate their easy handling, and during peak dinner hours, we couldn’t keep our customers happy without them.”

Ray Montez | Domino’s Franchise Owner, IL

# Four and Six-Burner Ranges

## Heat the food, not the kitchen

- 3x more powerful than a similar-sized gas burner
- 170% more efficient than a gas burner
- Precise control for the optimal cooking results
- No flames or hot surfaces provide for a safer, cooler, and more productive kitchen
- Four or six independent burner controls
- Square coils make one large heating surface, allowing the surface to have hot and cool zones
- Easy-to-clean high-impact, glass ceramic top surface
- Easy to use rotary knob with 0-10 power settings
- One-year field-service warranty – U.S. and Canada

Model No: MCxxxxx-xxx

Induction Ranges are designed, built, and tested to withstand the rigors of a commercial kitchen restaurant environment.

# Plancha

## Unparalleled heat-up speed and thermal consistency

- Near instantaneous recovery for consistent temperatures cook-to-cook
- Rapidly change surface temperature for a wide variety of products
- Surface reaches max temperature of 525°F (275°C) in less than 11 minutes
- Ability to set two zones at different, constant temperatures
- Even heating from edge-to-edge on entire cooking surface
- Available in freestanding or drop-in countertop designs
- Grease moat surrounds the entire cooking surface and empties into convenient removable drawers
- 360° rotary knob for temperature settings
- Steel or chrome surface top options allow for easier cleaning, less heat radiation, and less flavor transfer (half-grooved tops available)
- One-year field-service warranty – U.S. and Canada

Steel Top	Freestanding Model No:	Drop-in Model No:
Steel/Half-grooved Top	MPLxxxCS-xxx	MPLDxxxCS-xxx
Chrome Top	MPLxxxCSG-xxx	MPLDxxxCSG-xxx
Chrome Half-grooved Top	MPLxxxCR-xxx	MPLDxxxCR-xxx
	MPLxxxCRG-xxx	n/a

	Freestanding Plancha		Drop-in Plancha	
Height	11.4"	290 mm	7.32"	186 mm
Width	36"	914 mm	35.7"	907 mm
Depth	30.6"	777 mm	29.7"	754 mm
Weight	150 lb.	68 kg	160 lb.	72.6 kg
Electrical Specifications (3-Phase)				
200-240 VAC (max amps)	14,000W (38.9A)		14,000W (38.9A)	

The power and responsiveness of induction minimizes drops in cooking surface temperature, even when several pounds of cold proteins are added. This rapid recovery means a higher idle temperature is not required, which saves energy and reduces heat wasted into the atmosphere.

# Stock Pot Range

## High-volume rapid boil and precision simmer

- 170% more efficient and 3x more powerful than a similar-sized gas burner
- Boils five gallons (19 liters) in 17 minutes
- Precise control for optimal results and perfect simmer
- Freestanding design
- Large, easy-to-clean glass ceramic top
- Accommodates up to a 22” (559 mm) diameter pot
- Easy to use rotary knob with 0-10 power settings
- No flames or hot surfaces mean a safer, cooler, and more productive kitchen
- One-year field-service warranty – U.S. and Canada

Model No: MSPxxxx-xxx

Height	17.1”	434 mm
Width	21.9”	556 mm
Depth	22.9”	582 mm
Weight	75.5 lb.	34.2 kg

Electrical Specifications (3-Phase)		
200-240 VAC (max amps)	7,000W (20A)	
400 VAC (max amps)	8,000W (12A)	

The Stock Pot Range is designed and built to survive and thrive in the world’s toughest commercial kitchens and restaurants.

# Cooktops

## Portable, modular heat

- Nearly 2x more powerful than an electric burner, same plug
- Precise heating control for exceptional results
- No flames or hot surfaces provide for safe portable cooking
- Available in single or double, countertop or drop-in
- Temperature range from 85°F–500°F (30°C–260°C)
- 22 temperature settings and 20 power settings
- Even heat distribution across the bottom of cookware
- Automatic pan detection allows for instant energy transmission to pan
- Automatic shut-off feature prohibits overheating
- Easy-to-clean glass ceramic top surface
- Two-year advanced replacement warranty – U.S. and Canada

### Apogee™ Controls

- Touch controls with LCD display panel
- Built-in cook timer and lock feature
- 100 power cook and temperature settings

- Lock feature

“CookTek’s induction woks produce incredible heat in a very short amount of time. I was impressed with their performance from my very first use.”

Chef Warren Mah | Florida Culinary Institute, FL

# FaHeater™

## Sizzling hot in seconds

- Quickly, efficiently, and safely heats cast iron skillets in any commercial kitchen\*
- Programmable – three preset timers (25, 45, and 70 seconds) with the option to adjust timers to allow for different sized skillets and/or skillet-served products
- No flames or hot surfaces provide for a safer, cooler kitchen
- Portable countertop design uses minimal space
- Easy-to-clean glass ceramic top surface
- Integral grease filter and air baffle ensure air intake is cleaner and cooler
- Two-year advanced replacement warranty – U.S. and Canada

Model No: MCFxxx

\*FaHeater™ is used for heating skillets upon which food can be served and kept warm. It is not meant for cooking.

The FaHeater™ is a safe and efficient replacement for large, heat-generating gas stoves. There is no hot coil or open flame, leaving kitchens much cooler. The smooth glass surface of the FaHeater™ does not emit any ambient heat and eliminates messy burned-on spills.
