Product data sheet — FlexiCombi Classic 10.1 electric

Combi steamer according to DIN 18 866 (part 2) suitable for most of the cooking methods used in commercial kitchens.

FlexiCombi offers a choice of cooking functions with convection and pressureless fresh steam either separately, one after the other or combined with moist or dry heat.

Technical highlights

Durable hygienic cooking chamber AISI 316S11

Made of highly corrosion-resistant medical grade stainless steel, seamlessly robot welded, with rounded corners and protection against spillage, thermally insulated.

Hygienic door, insulated triple glazing (optional)

Saves energy due to low heat loss, high level of work safety due to low outside temperature, perfect hygiene due to flat seamless inner surface.

High performance PHI fan wheel

Best cooking uniformity with 5 programmable fan speeds and fan wheel safety brake.

High performance PHI fan wheel with integrated grease separation system without fat filter.

StepMatic® – Cooking step function

Individual combination of up to 6 programme steps, basic cooking methods in succession, e.g. 2x Steaming plus 1x Convection plus 3x CombiSteaming. Up to 50 individual cooking programmes can be stored.

Integrated shower hose (optional)

With automatic retractor function, can also be used when oven door is closed.

EasyLoad

Crosswise insertion supplied as standard to ensure safety and ergonomics at work. Distance between insert levels: 67 mm

FlexiRack[®] – capacity concept

Hanging rack for FlexiRack® with tilt protection for containersand for GN 1/1

Easy Load

Quality

crosswise insertion. FlexiRack® special sizes for an capacity increase up to 50% during cooking.* * compared to FlexiCombi with GN 1/1

PHIeco with DynaSteam2

High speed centrifugal steam generation technology with heat recovery and dynamic, microprocessor controlled steam quantity adjustment depending on the cooking process – Dyna-Steam2.

ClimaSelect – Climate control

Individually controllable cooking chamber climate with humidity and temperature measurement as well as active humidification and dehumidification.

ClimaSelect

WaveClean[®] – autom. cleaning sys. (optional)

- safe the detergent is in a cartridge sealed with protective wax
- easy insert the cartridge, ready
- economical by recirculation system

MKN-No.: FKE101R CL

Product data sheet — FlexiCombi Classic 10.1 electric

MKN-No.: FKE101R CL

Further features

- analogue setting and digital display for cooking temperature, humidity, cooking time and core temperature
- Manual operation concept with 6 cooking modes: SoftSteaming, Steaming, ExpressSteaming, Convection, CombiSteaming and Perfection
- Ready2Cook preheating, cool down, climate preparation
- internal core temperature measurement up to 99°C
- autoreverse fan wheel for extremely uniform cooking performance, 5 air speeds can be programmed
- manual cleaning programme with user guide
- energy supply as required
- EcoModus reduces temperature of cooking chamber autom. when this has not been charged for some time
- HACCP basic version
- integrated HACCP memory
- start time pre-selection
- manual steam injection/humidification.
- · temperature controlled vapour quenching
- cooking chamber with halogen lighting behind shockproof glass
 cooking chamber door with inspection window, rear
- ventilated, double glazed safety glass
- door lock with end stop, non-contact door switch, insertable door seal – replaceable by the enduser
- USB interface
- audible signal after cooking time has elapsed
- loudspeaker, selectable sounds
- · connection to external air outlet hood
- · direct waste water connection is possible

Installation requirements

- water supply provided by customer
- connection to waste water provided by the customer

Dimensions (LxWxH) (mm):	997 x 799 x 1060
Connected load (electrical) (kW):	15,9
Voltage ¹ (V):	400 3 NPE AC
Recommended fuses (A):	3 x 25
Frequency range (Hz):	50 or 60
Standard gas pressure – natural gas ² (mbar):	
Standard gas pressure – liquid gas ² (mbar):	
Water connection PHI:	DN 20 (G ¾ A)
Water connection miscellaneous:	DN 20 (G ³ / ₄ " A)
Waterpressure (kPa):	200 - 600 (2 - 6 bar)
Drain connection:	DN 50
FlexiRack [®] (530 x 570 mm):	10 (max. 65 mm deep)
Gastronorm 1/1 (530 x 325 mm):	10 (max. 65 mm deep)
Gastronorm 2/1 (530 x 650 mm):	-
Baking standard (600 x 400 mm):	8 (insert levels 85 mm)
Plates Ø 28 cm on FlexiRack [®] grids:	40
Plates Ø 32 cm – plate trolley:	40
Material housing:	1.4301
Material cooking chamber:	1.4404
Net weight (kg):	160
Gross weight ³ (kg):	180
Heat emission latent (W):	2862
Heat emission sensitive (W):	1908
Type of protection:	IPX 5

Product safety

CE mark

GS TÜV proofed

Option / accessories

- Hygienic door with insulated triple glazing
- Left hand hinged door and insulated triple glazing
- Two position safety door lock
- Internal multipoint core temperature probe
- Connection for external multi-point core temperature probe (can not be retrofitted)
- 2nd multi-point core temperature probe or sous vide (single point sensor)
- GN lengthwise insertion
- FlexiRack[®] hanging racks for baking size 400 x 600 mm
 Regeneration and plate banquet systems, thermal insulation hoods
- Regeneration and plate banquet sy
 FlexiRack[®] special accessories
- GN containers, GN grids and special baking and roasting trays
- WaveClean[®] automatic cleaning system
- Two-in-one cartridges
- Special cleaning and descaling agents, manual pressure spray gun for manual cleaning
- Integrated shower hose
- Stacking kits for table-top appliances, stands and base cupboards
 Steam condensation hoods
- Marine version, special voltage
- Connection for an energy optimization system
