Fridge MODEL : TB9-8H-SWB-N(HC) TB9-8H-SWS-N(HC)

Digital temperature control & monitor system

Keep food products safe by maintaining constant temperatures. External digital display allows for easy monitoring.

## Hydrocarbon(HC) refrigerants (R-290)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low affect to global warming (ODP-0, GWP-3).

### Forced Air cooling system

Fast colling and balanced temperature throughout the cabinet

#### High-density polyurethane insulation

The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.

#### Hot gas condensate system

Through Turbo Air's creative innovation, the condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but also thoroughly prevents the overflow of condensate water.

### Ergonomically designed doors

Customers' fatigue fades away with easy grip handles and doors that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience.

### Adjustable, heavy duty, PE (polyethylene) coated wire shelves

NATURAL Refrigerant

#### LED interior lighting & fan control (only at Turbo Air)

Energy efficient LED lighting lights every corner, making items easy to find. Fan control function automatically shuts off the fan when the door is open, which prevents hot air from being drawn in, thus maintaining the cool inner temperature.

#### Standard features

- · Anti-corrosion coated evaporator
- Self-contained system
- Door locks standard

### **Optional features**

- 125mm castors fitte
- 180mm,105mm, 80mm castors optiona
- Adjustable legs 100-155mm, 70-90m

WARRANTY: 3 Year Parts and Labour Warranty
