2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes

As announced to the ASX on 9 April 2026, first gold has been produced from the Lucky Strike project, with revenues from the first toll milling parcel being used to repay a substantial portion of the incurred costs for mining and operating the Lucky Strike Gold Mine.

The Group, and BML, have also revised the mine schedule and budget for the Lucky Strike Project, which in conjunction with existing ore being stockpiled on surface at the Lucky Strike mine, is anticipated to result in surplus cash from the Lucky Strike project to be shared equally 50:50 between BML and the Group. It is therefore anticipated that the Group will receive cash inflows from the Lucky Strike project, in excess of amounts advanced under the cash advance facility provided by BML, to further fund its operations.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes

As described above.
