

Why Cambro Healthcare?

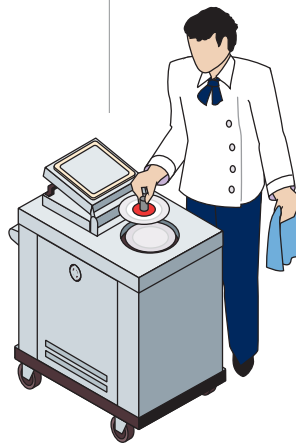

For over 60 years Cambro has been focused on developing innovative solutions to the toughest challenges in the foodservice industry. Cambro Healthcare products are designed to perform consistently under the most demanding conditions of healthcare foodservice.

The Components for Successful Meal Service and Patient Satisfaction

Hot Food

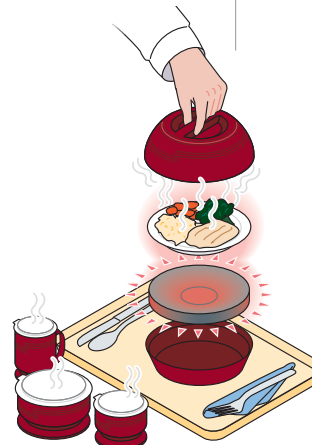

The goal of any meal delivery system is to keep food hot and fresh. Safe food handling and preparation are the first steps.

Hot Plate

Hot food needs a plate heated to proper temperatures. A plate that is not heated diminishes food quality for patients.

Plates should be heated between 65°C and 77°C.

Temperature Maintenance System

NSF-listed, meal delivery ware consisting of mugs, bowls, insulated domes and heated bases/pellets specifically designed for healthcare foodservice are vital to temperature maintenance.

Bases and Pellets should be heated between 132°C and 144°C.

Meal Transportation

From meal delivery carts to individual Tablotherm meal transport systems, these products can extend the heat retention of the meal to the patient's bedside.

Tablotherm Pellet System achieves temperature retention of 64°C for 2 hours.

Temperature Retention Systems

Insulated Dome

22,86 cm Ceramic Plate

Pellet Underliner

Camtherm Thermal Pellet

- Holds heat at its core to keep hot foods at safe temperatures.
- Stays 11°C cooler on the edge than metal pellets to protect staff and patients from burns.
- Is a high-density plastic composite that won't dent like metal pellets.
- Holds a 22,86 cm plate.

Color: Dark Gray (477).

Insulated Dome

22,86 cm Ceramic Plate

Heat Keeper Insulating Base

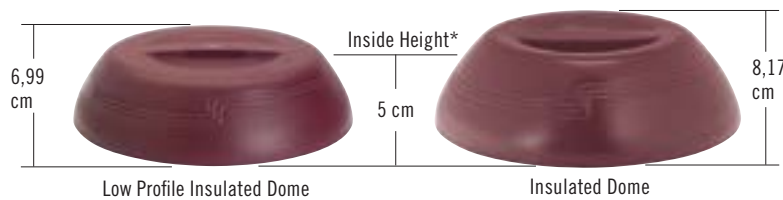

- Maintains heat for at least 20 minutes.
- Cost-effective solution to maintain meal delivery temperatures.
- Resists stains, odors and scratches.
- Holds a 22,86 cm plate.

Colors: Meadow (447), Wheat (457), Speckled Gray (480), Cranberry (487), Navy Blue (497), Black (110).

Low Profile Insulated Dome Comparison

Perfect for limited tray spacing as low as 11,43 cm

* This height is measured from a flat surface.

Meal Delivery Ware

Camtherm® Thermal Pellet System

The perfect choice for maximum heat retention, holds temperature for 60 or more minutes.

Domes and Delivery Ware are made of durable polypropylene and not designed for microwave use.
