 - Blending 101 Quick-Start Guide and Recipes

High Tech with Fashion Sense

The Designer 625 is engineered not only to perform - but also to complement your kitchen décor. The Designer 625 features next generation blending and control technology along with a stunning palette of seven colours to choose from.

Features include:

- 1560 watt motor
- Illuminated, capacitive touch interface
- Pre-programmed cycles: Smoothie, Ice Cream, Whole Juice, Hot Soup
- 6-speed capacitive touch slider + Pulse
- Illuminated display indicates remaining blend time
- 8 Year warranty

Illuminated Touch Controls

An intuitive touch screen with easy to see icons makes the Designer 625 more versatile and simple to use. It lights up with a single touch, shuts off automatically, and is completely flat so cleaning is as simple as a quick wipe.

Six-Speed Touch Slider + Pulse

Simply slide your finger left or right to control the motor speed for customised blending. Use Pulse for an added burst of power at any speed.

Pre-programmed Blend Cycles

No more guesswork! Four pre-programmed custom cycles enable one-touch blending perfection: Smoothie, Ice Cream, Whole Juice, and Hot Soup.
