SCOTS ICE AUSTRALIA FOODSERVICE EQUIPMENT

Australian Importers and Distributors
of the top leading brands in commercial
kitchen and refrigeration equipment

Nugget ice is generated through a vertical cylinder, with an internal turning auger which scrapes the ice from the internal surface of the evaporator, lifting it up to an ice extruder which compresses the ice shavings into a cylinder.

Compact and chewable nugget ice with low water content. Easy to store, place and weigh.

The range of nugget machines is made up of two models, with different capacities.

1g
NUGGET ICE
11 mm Ø x 13 mm H

Nugget ice is both compact and chewable. It's the ideal ice for cocktails like caipirinha, mojito and caipiroska. It's easy to measure like flake ice but it's much less wet
