FOOD PREPARATION

ReFlex™ Series
Pizza & Salad

Give your fresh ingredients the best defence with SKOPE's ChillGuard™ technology that blows crisp, cool air to every corner of the food well, with unprecedented consistency.

Available in salad and pizza configurations, and from two to four doors, this gastronorm compatible range utilises all the award-winning features of ReFlex™, including a 304 stainless steel build and complete control via the SKOPE-connect™ app.

A New Benchmark
Protect valuable food and drink with a crisp, clean wall of cool air projected with the unprecedented consistency of ChillGuard™ technology. No gaps, no blind spots, just leading-edge airflow engineered to keep your food below 5ºC.

A Strong Foundation
They say there's strength in numbers, and that's certainly the case with the material we use for food preparation. Accept nothing less than 304 stainless steel for the entire cabinet because of its robust strength, anti-corrosion qualities, and food safety characteristics.

A Digital Eye
Food safety issues happen when your eye is elsewhere. So we created a digital eye for you, that's always got your back. SKOPE-connect™ sends alerts to your smartphone if temperature strays from the range you've set, along with a summary of the cause and advice on what to do. We also store months of temperature history for easy record-keeping.

A Magnetic Design
ReFlex prep fridges have real magnetism - and it means they're easier to clean and maintain. That's because they embrace a tool-less design. Every part of our well is sized for easy handling by one person with no tools, thanks to the power of magnetic mounting that completely does away with unhygenic hard-to-clean brackets.

## ReFlex 2 Solid Door GN Compatible Salad Preparation Fridge

Cabinet	RF7.PPS.2.SD
Refrigeration Type	Fridge
Doors	2
Door Type	Self-closing, lockable, solid swing doors
Shelves	2 adjustable wire shelves per door + base
Material	304 AISI Stainless Steel
Dimensions (W x D x H mm)	1270 x 700 x 1110
Gross Volume (litres)	217
Floor Area (m^2)	0.89
Weight (kg)	139
Performance	
Max Ambient Temp (ºC)	40
Temperature Range (ºC)	1ºC to 5ºC (adjustable with SKOPE-connect 0ºC to 15ºC)
Climate Class	4M1
Energy Consumption (kWh/24h)	2.67
Annual Running Cost (@ $0.30/kWh)	$292 p.a.
Electrical Safety Climate Class	5 (Heavy Duty) 40ºC/40%RH
Refrigeration	
Refrigeration Unit	Self-contained, side mounted, removeable
Refrigerant / Charge	R290/90g
Controller	SCS Connect (SKOPE-connect™ compatible)
Electrical	
Current Draw (Amps)	2.0 (includes unit 1.0)
Interior Lighting	1 × 400mm, 4W LED light (door activated)

Suitable for use with 4 × GN 1/3 pans or 8 × GN 1/6 pans (or combination) (GN 1/3-100mm deep pans supplied)
Removable 200mm deep, 13mm thick cutting board

Supplied with removable castors (Ø100mm wheel)

ReFlex 3 Solid Door GN Compatible Pizza Preparation Fridge

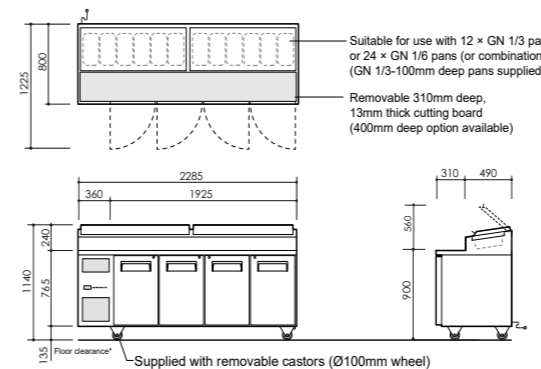

Cabinet	RF8.PPZ.3.SD
Refrigeration Type	Fridge
Doors	3
Door Type	Self-closing, lockable, solid swing doors
Shelves	2 adjustable wire shelves per door + base
Material	304 AISI Stainless Steel
Dimensions (W x D x H mm)	1800 x 800 x 1140
Gross Volume (litres)	523
Floor Area (m^2)	1.44
Weight (kg)	212
Performance	
Max Ambient Temp (ºC)	40
Temperature Range (ºC)	1ºC to 5ºC (adjustable with SKOPE-connect 0ºC to 15ºC)
Climate Class	4M1
Energy Consumption (kWh/24h)	5.45
Annual Running Cost (@ $0.30/kWh)	$597 p.a.
Electrical Safety Climate Class	5 (Heavy Duty) 40ºC/40%RH
Refrigeration	
Refrigeration Unit	Self-contained, side mounted, removeable
Refrigerant / Charge	R290/90g
Controller	SCS Connect (SKOPE-connect™ compatible)
Electrical	
Current Draw (Amps)	3.5 (includes unit 2.2)
Interior Lighting	2 × 400mm, 4W LED light (door activated)

Suitable for use with 9 × GN 1/3 pans or 18 × GN 1/6 pans (or combination) (GN 1/3-100mm deep pans supplied)
Removable 310mm deep, 13mm thick cutting board (400mm deep option available)

Supplied with removable castors (Ø100mm wheel)

ReFlex 3 Solid Door GN Compatible Salad Preparation Fridge

Cabinet	RF7.PPS.3.SD
Refrigeration Type	Fridge
Doors	3
Door Type	Self-closing, lockable, solid swing doors
Shelves	2 adjustable wire shelves per door + base
Material	304 AISI Stainless Steel
Dimensions (W x D x H mm)	1800 x 700 x 1110
Gross Volume (litres)	357
Floor Area (m^2)	1.26
Weight (kg)	162
Performance	
Max Ambient Temp (ºC)	40
Temperature Range (ºC)	1ºC to 5ºC (adjustable with SKOPE-connect 0ºC to 15ºC)
Climate Class	4M1
Energy Consumption (kWh/24h)	3.58
Annual Running Cost (@ $0.30/kWh)	$392 p.a.

Interior Lighting	3 × 400mm, 4W LED light (door activated)

Suitable for use with 12 × GN 1/3 pans or 24 × GN 1/6 pans (or combination) (GN 1/3-100mm deep pans supplied)
Removable 310mm deep, 13mm thick cutting board (400mm deep option available)

Supplied with removable castors (Ø100mm wheel)

ReFlex™ Series
Underbench
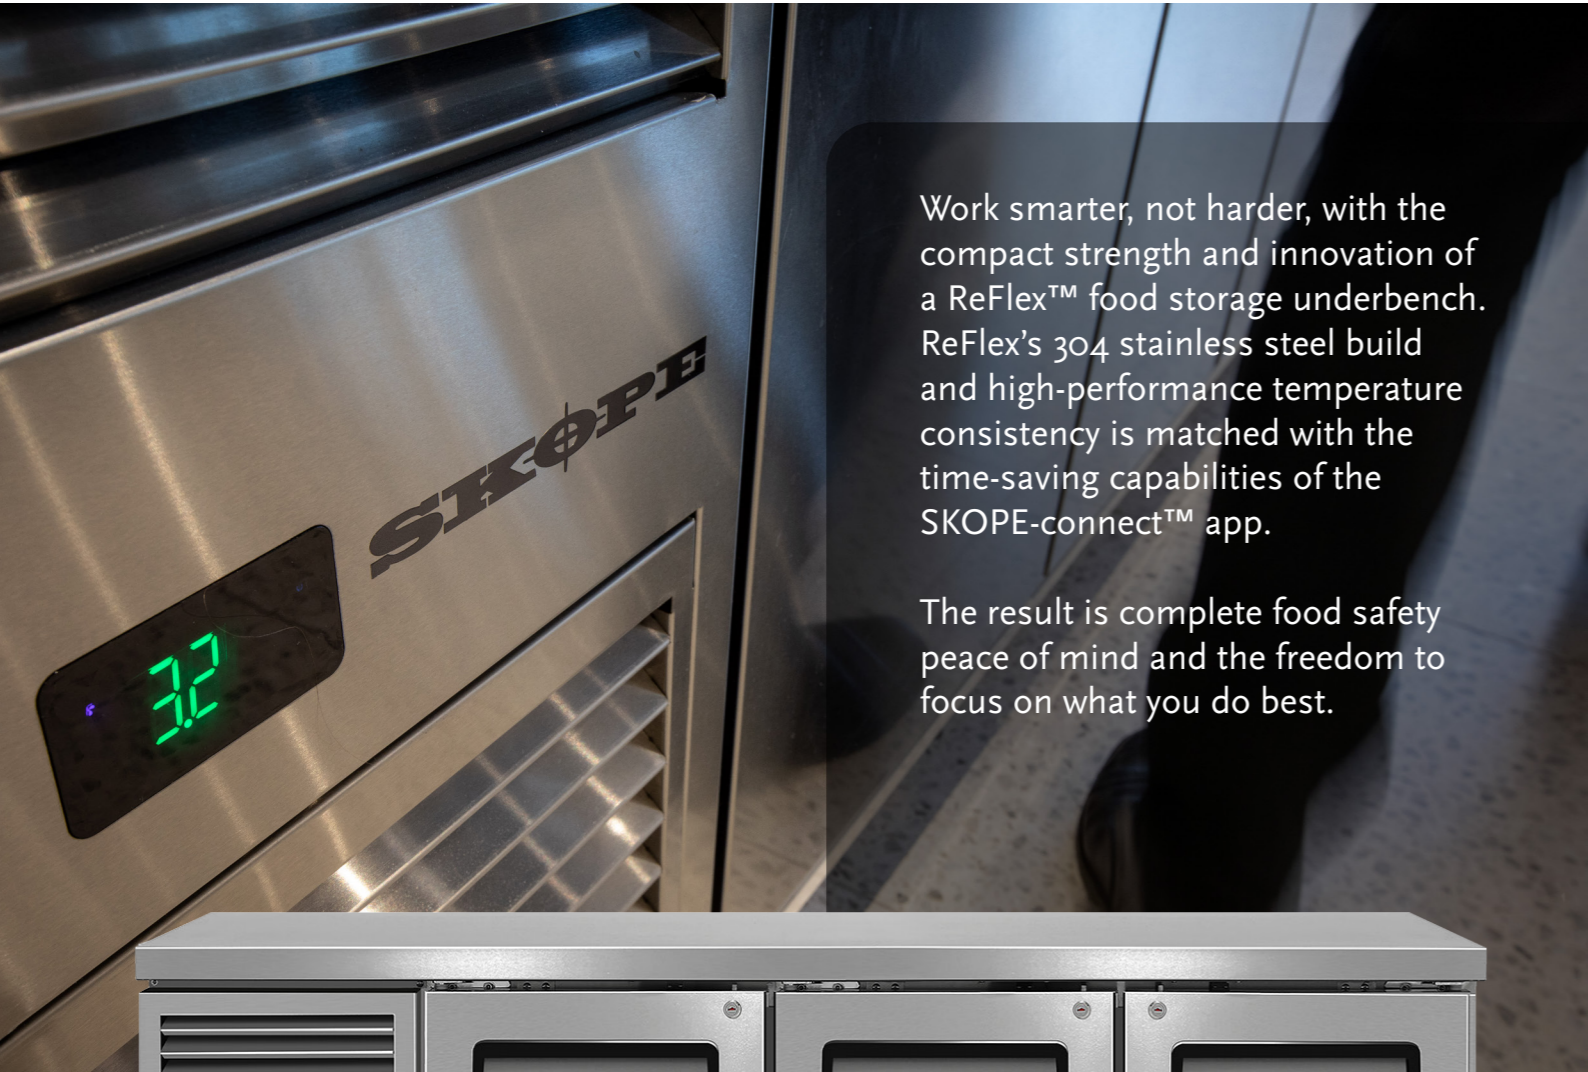

Work smarter, not harder, with the compact strength and innovation of a ReFlex™ food storage underbench. ReFlex's 304 stainless steel build and high-performance temperature consistency is matched with the time-saving capabilities of the SKOPE-connect™ app.

The result is complete food safety peace of mind and the freedom to focus on what you do best.

A Powerful Food Safety Barrier
Enjoy the peace of mind that comes with using 304 stainless steel, an ultra-strong material with excellent anti-corrosion protection. Greater resistance to food acids and optimum hygiene makes 304 stainless the benchmark for food applications. We use 304 stainless steel on all surfaces including the seamless workbench.

An Easy-going High Performer
Chill and freeze with extreme temperature consistency throughout the cabinet without paying for it in your power bills. ReFlex™ provides both the power to refrigerate with confidence and market-leading energy efficiency.

An Eco-friendly Solution
Minimise your business's carbon footprint with R290 Hydrocarbon, a natural refrigerant with virtually zero global warming potential.

A Flexible Food Specialist
Menus change and rarely with any thought for the refrigeration required. That's why SKOPE-connect™ lets you change fridge temperature range on-the-go, from your smartphone, so you can minimise tech callouts and unnecessary refrigeration spend when you need to accommodate different food.

ReFlex™ Series
Upright

Secure your food on a smaller footprint with the strength and innovation of a ReFlex™ upright storage fridge or freezer.

SKOPE pioneered the upright format, and we've taken everything we know about designing for strength and placed it in these models alongside the same award-winning feature set of ReFlex™ underbench fridges.

A Tower of Strength
To ensure food safety on a small footprint, you need heavy duty structural integrity. And that's what a ReFlex™ upright delivers in the shape of its thick solid-door design and ultra-strong 304 stainless steel construction.

A Smart Compliance Solution
Streamline and support HACCP compliance with temperature data export from the SKOPE-connect™ app. Simply tap to share via your choice of communications app, from Gmail to WhatsApp. Depending on your local requirements, you may be able to do away with pen and paper altogether!

A Closet with No Skeletons
We've mastered temperature consistency, so you don't have to contend with the temperature variations and pockets that traditionally plague this type of technology. Place food anywhere in your upright and walk away with peace of mind.

A Design with Pedigree
We know uprights. In fact, you see them everywhere throughout Australasia today because of us. We're also continually improving and moving the goalposts for the market, which is why it pays to avoid imitators.

Upright

Complement your high-performance culinary kitchen with premium gastronorm 2/1 food storage refrigeration that is just as results driven as you are.

Designed for professionals that need the best of the best, ProSpec™ utilises SKOPE's powerful ActiveCore™ technology and incorporates a minimalist, design-led aesthetic.

A Specifier's Dream
ProSpec™ is for the hospitality professionals, chefs, and restauranteurs who wonder what the best looks like. With full GN2/1 stainless steel shelving, it represents the ultimate in hygiene, durability, and performance. ProSpec™ is the food storage fridge that will never feel out of place in the best kitchens in the world.

An ActiveCore™ Food Storage Solution
ProSpec is unique in that it's the only food storage fridge in the world that takes advantage of ActiveCore™ technology. The highest performance, the lowest power bills, and the easiest maintenance interchangeable cartridge system – but only in ProSpec.

An Ethical Choice
Where you go, others follow. You need to set an example, especially when it comes to your business's carbon footprint. That's why ProSpec™ uses R290 Hydrocarbon, a natural refrigerant with virtually zero global warming potential.

A Minimalist Outlook
We take pride in our work, right down to the smallest visual detail. We also think kitchen professionals deserve to be surrounded by equipment that isn't just functional, but aesthetically pleasing and potentially ageless.
