KEEP PRODUCE FRESHER LONGER*

The FreshWorks™ Produce Saver regulates the flow of oxygen and ethylene, creating the optimal environment to store fruits and vegetables. By allowing the produce to “breathe”, the FreshWorks™ Produce Saver helps maintain stay at their peak freshness for a longer period of time, reducing the amount of food thrown away due to spoilage.

*Based on produce stored in RCP FreshWorks™ Produce Saver vs traditional food box.

FILTER

The integrated filter naturally regulates the flow of oxygen to allow produce to remain fresh for an extended period of time.

DRAIN TRAY

The built in drain tray promotes air flow while elevating produce from any residual moisture, preventing a soggy product.

AIR TIGHT LID

The air tight lid is easy to open and close helping to create the perfect environment within the container.
