

### Stainless Steel Drawer

- Fully welded 1.2mm construction, supplied with locks and keys.
- Fitted to pre-existing studs below worktop.
- Single, Double or Triple tier available.

### Counter Conversion Kit

- Encloses 3 sides of workbench to create counter.
- Full 1.2mm stainless steel construction.
- Encloses all sides of 01, 02, 03 work benches, and 05 and 06 sink benches
- No fixings required.

### Splashback Adapter

- Connect with existing upstand at left or right end of the bench against a corner wall.
- Suits dry benches and sink benches.

### Front to Back Leg Joiner

- 25mm square stainless tube joiner welded to stainless collars.
- Joins front to back legs without the need for a leg brace or undershelf.

### Stainless Lug Foot

- Can be fitted to nylon or steel leg inserts.
- Hole provided to fix to floor if required.
- Used when coving interferes with standard 38mm stainless disc foot.

### Leg Adapter

- 1.2mm stainless channel with welded steel collars.
- Used on underside of work bench to change leg position or to manufacture custom/bespoke sizes.

### Heavy Duty Castor

- Stainless Steel castors supplied with a nylon wheel in lieu of the standard rubber.
- Suited for high impact zones in wet areas.

### Cabinet Fixings

- Used for a straightforward fixing of any panel material to legs.

### Leg Brace Undershelf

- Undershelf available as a drop on accessory to suit leg brace.
- Suits 600 and 700 series leg braces with six legs.

### Extra Long Disc Foot

- Can be fitted to nylon or steel leg inserts.
- Used to raise working height of bench to 955mm.
- Bench height adjusted for water drainage if required.

# Simply Accessory Guide
