We have expanded the Speed Pro range - Discover the new possibilities

Zumex's fastest and most robust range has been designed to meet everybody's juicing needs. It includes new models which provide a more efficient, secure and faultless service than ever before.

The new Speed Pro +Plus has been created for cafeterias, supermarkets and hotels. It offers an improved user experience and is faster and easier to use.

Speed Pro +Plus
expands the
possibilities for your
business. Discover
the new models.

Speed Pro

THE MOST COMPLETE RANGE

The key factors of the Speed Pro range are speed and capacity. With its unique juice extraction and professional service, it has consolidated its position as a key product in several different industries.

Discover the **tabletop** and **podium** models and see how they can be adapted to day to day use in large superstores and self service areas.

Objective: Get the best performance.

The 6 key factors to the success of the Speed Pro

From beginning to end, everything is taken care of to make your life easier.

20 Kg

1 Improved loading

- 20 Kg capacity.
- Easy action front opening.
- Guaranteed orange rotation.
- **Drain&Clean** system, for better cleaning.

2 Easy action juice extraction unit

- Wide feeder tube, which makes it easier to put oranges into the machine.
- An easy to remove cover with extraction system **Click&Clean**.
- Peel outlet with automatic safety stop detectors.

3 Self-service!

- **2Service tap** with two modes: continuous or non-continuous, perfect service, intuitive and functional.
- Removable, easy to clean.
- Removable stainless steel bin "in just one click".

4 PulpOut system

- **Manual sweeper:** slide side-to-side and eliminate the pulp when you need to.
- **W Filter:** traditional way of removing pulp; empty-out when ready.

5 Intelligent Electronics

- The **Intelligent Touch** device can be used to programme the usage mode (automatic or professional), the language, and the number or oranges to be juiced.
- **Waste Limit:** it is possible to programme in the load capacity so that the machine will stop automatically when the waste bucket is full.

6 Waste management

- Stainless steel podium with wheels which improves mobility and security.
- 52 L capacity waste trolley.

More juice
in less time.

NEW

Speed Pro⁺PLUS

SQUEEZE THE MOST OUT OF
YOUR SUPERMARKET

Turn shopping into an experience.

Our daily life usually leaves us with little time
to look after ourselves and eat and drink healthily.

A competitive advantage.

This is why more and more supermarkets are offering their
customers freshly squeezed, high quality juice in their stores.

This is possible with the new range of Speed Pro +Plus juicers.

Functional and easy to use.

Prepared then and there by the consumer, you can offer the
freshest supermarket product to take away or to drink then
and there.

Choose the best option for your supermarket.
There's a Speed Pro +Plus for every situation.

Discover the next level

We are reaching new heights with the Speed Pro +Plus. **Here are the new features which make it an extraordinary juicer.**

It's now even easier to get the best juice. Perfect for **supermarket chains, hotels or self service stores** that are looking for a better level of service.

More benefits,
better hygiene
and easier to
use, better value
for you from day
to day.

New automatic PulpOut System

High performance

Its automatic conveyor belt which gets rid of pulp **easily, hygienically and quickly**. It saves time and means your juicer can run by itself.

You can programme the machine's usage mode, **continuous or non-continuous** which will improve your juicer's performance and the **Autoclean function** will always keep the filter clean.

You choose!

Modes:

- **Continuous. Maximum autonomy.**
Eliminates pulp during all of the juicing time.
- **Non-continuous. To maximize filtering time.**
The number of juicing cycles can be set according to the type of pulp:

SLOW	REGULAR	FAST
		
20 oranges	15 oranges	10 oranges

- **Autoclean function.**
This will get rid of the pulp once juicing is finished. And keep the filter clean to maintain your self-service store's good image.

Triple filter

Guaranteed high quality and optimal texture juice.

Quick disassemble

Extract the PulpOut kit without removing other parts.

High precision filter maximises performance

The micro-perforated silicone pulp conveyor belt improves performance by producing more juice per orange.

Great engineering design

The top cover directs the juice to the centre of the belt to better remove the pulp. The side cover stops the remaining pulp from falling.

Dishwasher friendly

All components can be cleaned in the dishwasher.

New Extraction kit

Disassemble and clean
in record times

• Easy and compact

Remove the entire juicing mechanism **in just 10 seconds** without having to dismantle it piece by piece, reducing the disassembly and cleaning times.

• Easy cleaning

Turn the central knob and remove the mechanism using the stainless steel bracket. The mechanism can be cleaned in one piece, in a dishwasher or under the tap.

* A deep clean is recommended at least once a week.

Easy disassemble

Patent Pending: 201630663

Bottle holder with
drainage system

New tap

Easy serve

Speed Pro +Plus Self Service tabletop and podium models have a front tap which dispenses juice at the push of a button.

It also has a **bottle holder*** which holds the bottle in place under the tap during the juicing process.

* Comes as standard with the Speed Pro +Plus Self Service Podium.

New podium

Double capacity

The new Speed Pro +Plus Self Service Podium has two compartments which can take **up to 100 L - 70 Kg** of waste. Which means it can juice **up to 55 Kg / 330 oranges** without being changed.

The new podium model also has a bottle holder with drainage system leading directly to the waste compartment.

up to
50 L
35 Kg
per
compartment

Speed **Pro** retail

Robust on the outside. Fast on the inside

Technical Characteristics	
Fruits per munute	40 oranges / min
Litres per minute	2.5 - 4.5 l / min
Fruit size	65-81 mm
Feeder capacity	20 Kg l 44 lb
Specification	IPX4

Power	300 W 0.4 HP (560 W 0.75 HP Cooler)
Consumption	2.7 A (4.85 A Cooler) / 1.2 A (2.4 A Cooler)
Voltage	120 V 60 Hz / 220-240 V 50-60Hz
Security	Triple safety detector and motor seizure detection

Your choice

Personalise your Speed Pro

Create your perfect juicer

New Extraction kit

Discover how to keep your Speed Pro +Plus juicer running at its best

Obtain your extraction kit with additional juice Extraction System and start to save time now. With this accessory you will be able to dismantle the machine in just 10 seconds and clean it under the tap or in the dishwasher.

* Accessory available for all of the Speed Pro +Plus range. Including juice extraction system.

Kit S

For smaller diameters

Perfect to squeeze smaller fruit (ie. small oranges, lemons and limes with diameters of 67 mm to 45 mm). Easy installation and disassembly.

Kit L

For larger fruits

Perfect to squeeze larger fruit, from 75 mm to 95 mm, (ie. grapefruits, pomegranates). Easy installation and disassembly.

Countertop Kit

So that the machine can run by itself

Waste management is integral to this system and this will help you do it in the cleanest, most practical way.

Bottle Rack

For when the machine is being used in a self service setting

This takes the worry out of organising your bottles, glasses or jugs clearly and will impress your clients.

DCS System

For the trickier fruit

For juicing soft or over ripe citrus fruit, no fruit can withstand its dynamic blades.

Zumex Pack

Juice to take away

Take away freshly squeezed juice to drink wherever you like, our bottles come in 6 sizes (1.5 l, 1 l, 75 cl, 50 cl, 33cl y 25 cl) all with personalised labels.
