

Zip HydroChill

Solutions for the workplace

Chilled & sparkling filtered water
High capacity for bottle filling

Pure-tasting filtered water on demand to keep up with a busy workplace

Promote healthy hydration at work with Zip HydroChill, a range of flexible high-capacity filtered water systems

Zip HydroChill systems provide premium high quality & high capacity filtered water on tap, enabling staff to stay hydrated at all times.

Unlimited hydration for employees and guests not only means a healthier, more productive workplace but a greener business. Remove the need for disposable plastic water bottles when you install a Zip HydroChill.

Having pure-tasting filtered chilled, sparkling and ambient water on demand means staff can refill their water bottles and enjoy water in a form they want in an instant. Fill carafes and jugs for meetings and functions with ease.

- **Perfect for high demand**

With the ability to cater for as much filtered chilled, sparkling and ambient water as required, Zip HydroChill offers a range of drinking water solutions, no matter the size of your organisation.

- **Eco-friendly**

Great-tasting water, instantly, without a plastic bottle in sight.

- **Pure tasting water**

Thanks to Zip's MicroPurity filtration, Zip HydroChill delivers pure-tasting water that uses our latest filtration technology to reduce impurities and potentially harmful contaminants.

- **Water capacity to suit any workplace**

Zip HydroChill can deliver up to 200 litres of chilled filtered drinking water per hour, straight from the tap.

- **Wellness in the workplace**

Staying hydrated at work not only helps employees stay healthy, it also positively impacts on productivity. Drinking water regularly throughout the day helps you stay alert, improves concentration and means you're less likely to get stressed.

- **Certification**

Zip Water offers the widest commercial range of high capacity chilled sparkling water systems in Australia, all certified to the Australian & New Zealand WaterMark standard.

Pure-tasting water with Zip HydroChill MicroPurity filtration

Zip HydroChill uses our latest MicroPurity filtration technology, with a 0.2 micron filter to deliver pure tasting water.

It is certified to reduce chlorine, taste, odour, bacteria, sediment and limescale in line with NSF 42 (aesthetic effects) and WaterMark requirements. Zip MicroPurity filtration is also certified to deliver a reduction of 99.9% of cysts including cryptosporidium and giardia, and lead reduction of 98.9% to NSF 53 (health effects).

WM - 022314

Australians buy over **580m** litres of bottled water a year. Much of which ends up in landfill and on our beaches.

Eliminate the need for bottled water reducing your environmental impact
