

SOUL

SERIES 2

Design must be functional, and
functionality must be translated into visual
aesthetics without any reliance on
gimmicks that have to be explained.

NUEVA
SOUL
SERIES 2

A formally harmonious product
needs no decoration; it should
be elevated through pure form.

**INSPIRED BY
NATURE**

**DESIGN
DIRECTION**

Metal

METAL

Solid, robust, professional and elegant.

The **Metal** design line transmits the classic essence of Horeca equipment, where traditionally stainless has been and is the predominant material.

We introduce the metallic **Space Gray** tone as an evolution of its predecessor, this time looking for a less marked contrast.

Natural

NATURAL

Healthy, fresh and of course natural.

The Natural design line places the Soul 2 in contexts that seek the traditional, with fresh and natural woods and tones.

We introduce Sand Brown as an alternative to the elegance and technological look of the Metal range.

EASY TO CLEAN

01. Switch your Soul on

Plug the machine into the electricity grid.
Make sure that the network voltage coincides with the voltage shown of the machine Identification Label.

Connect your juicer
as you can see explained **Zumex Connect**

Press the front button for 1" until
a steady white light appears.
Check that the top lid, waste collection tray and door
are in place correctly. Remember to open the tap
and use a glass at the juice outlet.

02. Juice

To juice, simply press the front
button. You will see the colour of the
button change automatically from
white to orange.

Understand the language of Soul

WHITE. Ready to juice.

FLASHING WHITE. Waste collection tray incorrectly
positioned / Front door open / Top lid incorrectly
positioned

ORANGE. Juicing correctly.

FLASHING ORANGE. Empty waste
collection tray / Juicing system blocked
PulpOut System blocked

The machine will notify with three beeps
which the waste collection tray is full and needs
to be emptied.

03. Switch your Soul off

Press the front button for 2",
or disconnect the network cable directly.

If the machine does not detect any
oranges, it will stop, approximately 20"
after the last orange has gone through.

JUICE
EXPERIENCE

Get the best performance, register your juicer

Saca el máximo rendimiento,
registra tu exprimidora

Obtenez le meilleur rendement,
enregistrez votre presse-agrumes

Soon to register:

Zumex Connect number

Serial number

CONNECT

EN

When you turn on the machine, it will emit this
WiFi network: **Zumex Connect**, to which you can
connect with your mobile device, tablet or PC,
using the **PIN: 0000**

Enter the URL: **http://192.168.0.1**
into your browser

A screen with the option **Settings > WiFi**
will appear. Enter your network
parameters here.

Your machine is now connected to the Internet!

From the same **menu**, you can set the **language**
or **access PIN**, as well as other options.

Access the **Customer Registration** area on the
website **zumex.com** and enter the **serial number**
of your machine and the **Zumex Connect**
number on the back of this guide. Once registration
is complete, **you will receive your access details**
to the reports in an email. You can also access by
scanning the **QR code** in this guide.
